Concept Map Example Definition of a Concept Map. A concept map is a type of graphic organizer used to help students organize and represent knowledge of a subject. Concept maps begin with a main idea (or concept) and then branch out to show how that main idea can be broken down into specific topics. Benefits of Concept Mapping

How to use a Concept Map to organize and comprehend ...

Using Concept Tests. Concept tests (or ConcepTests) are short, informal, targeted tests that are administered during class to help instructors gauge whether students understand key concepts. They can be used both to assess students' prior knowledge (coming into a course or unit) or their understanding of content in the current course.
