Darwin. There is no doubt about the fact that the change from a static-typological worldview to a dynamic-evolutionary worldview represents one of the greatest paradigm shifts in the history of ideas. This shift was initiated by the publication of Charles Darwin's 'On the Origin of Species' in 1859, in which he put forth his ideas on the evolution of life.

### **Darwin - Evolution of life**

This is a concept map. You are able to use the phrases on the left once, more than once, or not at all. I would really appreciate some help mapping these ideas out about the theory of evolution by natural selection correctly into a concept map.
