The neon sign is an evolution of the earlier Geissler tube, which is a broken glass tube containing a "rarefied" gas (the gas pressure in the tube is well below atmospheric pressure). When a voltage is applied to electrodes inserted through the glass, an electrical glow discharge results. Geissler tubes were quite popular in the late 19th century, and the different colors they emitted were ...

Emerging Issues Technology in Academic Laboratories. Few things are more compelling than a public display of learning. Large and small scale events and interactions should be encouraged by a building's easy access to simple technologies, including power and wireless networks – inside, outside, and at the student center and local café.

Academic Laboratory | WBDG - Whole Building Design Guide
