Concept Check Answer Materials Science

The categories listed below are those that will be used at the Intel ISEF 2019. Local, regional, state and country fairs may or may not choose to use these new categories, dependent on the needs of their area. Please check with your affiliated fair(s) for the appropriate category listings at that level of competition.

Intel ISEF categories and subcategories | Student Science

Abstract Quick, what is your favorite color of M&Ms® candy? Do you want to know what dyes were used to make that color? Check out this science project to find out how you can do some scientific detective work to find out for yourself.

Candy Chromatography: What Makes Those Colors? | Science ...

Here are a couple more examples of stimulus shaping. Stimulus fading is the procedure where a feature of the materials (stimulus) is made more salient and then gradually faded over time to become a more generalized stimulus. In this procedure, fading involves the manipulation of any dimension of the stimulus (e.g., color, size, shape, position) not just the relevant one.
