Okay so i've been somewhat strong in English throughout my life so far. I was into philosophy, literature, debating and all that jazz, but never seemed to like math that much. Now i'm in my first semester in college majoring in Political Science and had only now found out i really HATED it. So all my life, i was good with English related subjects, but never had the passion for it.

Should i do Computer Science? | Yahoo Answers

Yahoo Philippines Answers ... Most people who venture into Computer Science already have experience in Java or C++ or some other programming language. Do you at least know HTML? If not, then you're in trouble. But if you're willing to WORK HARD and study like crazy, go for it.

Yahoo New Zealand Answers ... I'm in my first year of computer science in high school, we're doing a final project and i'd appreciate any ideas (not too hard, because I'm not that good at programming). Oh, and we use C++ language. Thanks(: 1 following .

Computer Science Project Ideas? | Yahoo Answers

Hello, I'm 17 years old and living in Quebec, which means after I graduate in a few months from high school I'll be going to CEGEP for 2 years, which is pretty much mandatory pre-university. I'm doing a program called Pure and Applied Science, which is basically a science course without much biology, for people who want to be engineers for example.

Computer Science or Engineering? | Yahoo Answers

What are graphs, in computer science, and what are they used for? In laymen's terms preferably. I have read the definition on Wikipedia: . In computer science, a graph is an abstract data type that is meant to implement the graph and hypergraph concepts from mathematics.
